**General Report Comments:**

Document No: CS 1079905      Validation Date: 17 November 2016

**Identification**

Mineral Type: Natural Corundum  
 Variety: Pink Sapphire      Color Description: Pink  
 Carat Weight: Not determined      Shape: Oval  
 Measurements: Approx. 10.90 x 8.18 x 4.83 mm      Cutting Style: Mixed Cut

Identification

**Comments:** Set in a white metal ring with several smaller green gemstones (not tested) and several round diamonds (identified at random).

**Origin**  
 Provenance: Ceylon (Sri Lanka)

Origin

**Comments:** Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Ceylon (Sri Lanka).

**Enhancement**

Standard: No gemological evidence of heat.      Additional: None  
 Degree: N/A      Degree: N/A  
 Type: N/A      Type: N/A  
 Stability Index: N/A      Stability Index: N/A

Enhancement

**Comments:** Non-heated pink sapphires are scarce. Pink sapphires are commonly heated to modify their color and appearance. N/A represents Not Applicable

**American Gemological Laboratories™**

America's first and most highly respected origin lab.

Founded in 1977,

AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analyses.

AGL has the distinction of being the first laboratory in the United States to issue Country-of-Origin reports. Our company and its principals have a long tradition of research into the detection of and reporting on gem identification-and-classification, gemstone treatments and provenance determinations.

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unsurpassed quality and reliability. We are committed to providing the highest level of service and reporting that our clients and the industry have come to expect from the AGL.
