General Report Comments:

Document No: 1081924 Validation Date: 7 March 2017

Identification

Mineral Type: Natural Beryl

Variety: Emerald

Color Description: Green

Carat Weight: 6.00 cts

Shape: Rectangular

Measurements: 13.72 x 10.38 x 5.22 mm

Cutting Style: Emerald Cut

Comments:

Origin

Provenance: Colombia

Comments: Based on available gemological information, it is the opinion of the Laboratory that the origin of this material would be classified as Colombia.

Enhancement

Standard: Clarity

Degree: Minor

Type: Traditional

Stability Index: Very Good to Good

Additional: None

Comments: This emerald contains fissures which at the time of testing were only partially filled. Traditional materials used to clarity enhance gemstones include various oils (such as Cedarwood oil), waxes (Paraffin), as well as others.

Identification

American Gemological Laboratories™

America's first and most highly respected origin lab.

Founded in 1977,

AGL is an internationally recognized gemstone testing facility, specializing in comprehensive colored stone analyses.

Origin

AGL has the distinction of being the first laboratory in the United States to issue Country-of-Origin reports. Our company and its principals have a long tradition of research into the detection of and reporting on gem identification-and-classification, gemstone treatments and provenance determinations.

Enhancement

Our staff is composed of experts in the field of gemstone testing and reporting. Our findings reflect the latest knowledge and analytical techniques to ensure the highest standards are applied on every stone we test.

AGL's testing and reporting methodology provide you with unsurpassed quality and reliability. We are committed to providing the highest level of service and reporting that our clients and the industry have come to expect from the AGL.
