Whom It May Concern:

Date February 25, 1976

Following for identification: and complete quality grading:

DESCRIPTION

TESTS AND FINDINGS

transparent near colorless round brilliant
measuring approx. 7.18 - 7.27 X 4.22 mm

10X binocular magnification
Diamondlite with master color diamonds
Ultra-violet
Leveridge gauge & MM reticle
Diamond balance

Conclusion:

-----DIAMOND, Weight: 1.36 carats----- (see attached Diamond Report)-----

The above client agrees to be responsible for and to protect, indemnify and save the Gemological Institute of America (GIA) and its employees harmless from and against any and all injury, loss, damage or destruction of said gemstones or pearls while in the possession of GIA resulting from any cause whatsoever, not attributable to the negligence of GIA or its employees.

This report is submitted to the above client for his exclusive use. Neither GIA nor any of its employees shall be responsible for any action that may be taken on the basis of such report. As protection to the client, the public and GIA, this report or the name of Gemological Institute of America or the Gem Trade Laboratory may not be used in whole or in part for advertising, publicity or promotion, without the express prior written authorization from the GIA.

Diamond Report

No. NY100230
2/25/76

In the opinion of the Laboratory, the following are the characteristics of the stone, or stones, described on the attached report as based on measurements and also on observations made through the Gemolite (10X binocular darkfield magnification) and in the DiamondLite, utilizing master comparison stones. Mounted stones graded only to the extent that mounting permits examination.

(Red symbols denote internal characteristics; green, external. Symbols indicate nature and position of characteristics, not necessarily their size. Where applicable, setting prongs are shown by black symbols.)

SHAPE AND CUT round brilliant
Measurements approx. 7.18 - 7.27 X 4.22 mm
Weight 1.36 carats

PROPORTIONS

Depth Percentage 58.3%
Table Diameter Percentage 68%
Girdle Thickness slightly thin to slightly thick, faceted
Culet Size medium

FINISH

Polish good
Symmetry good

CLARITY GRADE Flawless

COLOR GRADE I

Ultraviolet fluorescence none
