Ginette Lospinoso, Head of Interiors for Christie's New York, comments: "What a great way to start the Fall auction season here in New York. With an overall sell-through rate of 99 percent by lot, virtually every category of fine art, furniture, and decorative art sold well today. We witnessed particularly strong results for Silver, Russian Works of Art, Chinese Export Porcelain, Chinese Works of Art, and Art Nouveau Glass, which included a superb selection from the extensive Pinhas collection. Fine Art continues to draw exceptional prices, particularly for American and French paintings and those with museum provenance. We look forward to continued success with our next New York sale, to be held October 1 and 2."
