Comment: Aurel Bacs and Tim Bourne, International Co-Heads of Christie's Watch Department:

"Christie's continues to be the leading marketplace for the sale of fine and rare watches with a very strong result of SFr.15,154,325, exceeding the high pre-sale estimate of SFr. 12 million and selling 93.49% by value and 93.15% by lot.

A well attended sale attracted a significant number of registrants (764) and generated bidders from all of the world throughout the day with a notable increase in Asian buying. Online bidding continued to grow and 198 bidders from Asia, US, Europe and Canada used Christie's LIVE to participate in the sale. A further 192 bidders were on the telephone, 116 were in the room and 258 bidders left absentee bids. The morning session was highlighted by Royal rarity (lot 59), and watches of exceptional quality, that were fresh to the market, including lot 84 selling for just under SFr 2 million and doubling its pre-sale estimate. The afternoon was dominated by a probably unique Patek Philippe aviator watch (lot 209) which sold for SFr. 1.89 million - 6 times over its pre-sale estimate - to a Swiss Private Museum. The sale also offered one of the largest selections of Rolex watches seen at auction in recent years, resulting in over 90% sold by lot and setting numerous new auction world records including lot 339. After the strong performance of our recent Watch sale in Dubai, which was 98.2% sold by lot in addition to Geneva's success, Christie's looks forward to its forthcoming Watch sales in Hong Kong (27 May) and New York (10 June).
