Comment: Philippe Garner, International Head of 20th Century Decorative Art & Design, Christie's: "We are pleased with the results achieved today, which saw an international following for a range of works from the entire modern design movement. This multi-faceted sale was characterized by strong bidding for works ranging from American Arts & Crafts, to French decorative arts to Sixties artist designed jewellery. Strong results were achieved especially for the pieces by Jean-Michel Frank, whose market appeal was reconfirmed by strong international interest. A world auction record was established with John Scott Bradstreet's 'Lotus' Table, which fetched an impressive \$386,500, and a table and lamp by Luis Barragan now share a world auction record for furniture by the Mexican architect, selling for \$35,000 each. The exquisite private collection of GEM jewellery was 100% sold and fetched incredibly strong prices for modern pieces designed by artists including Lucio Fontana, Pol Bury, and Arnaldo Pomodoro. Finally, we were particularly delighted with the exceptional performance of François-Xavier Lalanne's *Rhinocéros Mécanique*, which far exceeded its estimate, and sold for \$98,500. This was the highlight of a section devoted to François-Xavier and Claude Lalanne that performed exceptionally well."
