€362,244

COMMENT: Joy McCall, Head of British Decorative Arts, Christie's London:

"The first-ever auction devoted to Liberty totalled over a quarter of a million pounds today. A fitting tribute to an institution that championed progressive design at the turn of the 20th century, Liberty not only ensured its avant-garde production remained affordable, but also provided a showcase for the most talented designers of the day – a philosophy the Christie's Decorative Arts Department in London was keen to honour in this innovative and well-attended sale."
