COMMENT: "We are thrilled with the results from today's sale," said Adrienne Hines, Head of Watch Sales at Christie's New York. "Excited and passionate collectors, both on the phone and in the room, produced strong prices across all categories of pocket and wristwatches. From modern wristwatches, to complicated and rare vintage Patek Philippe, this sale indicates not only the health of watch market, but also Christie's strength in the watch auction arena. The morning session especially, focusing on exceptional modern wristwatches, produced a tremendous result of 99.1% by value, exceeding the pre-sale high estimate. With these great results, my colleagues and I are now looking ahead to continued success throughout our Fall sale season, with sales on 14 November in Geneva and 30 November in Hong Kong."
